FACTS AND FIGURES REGARDING STATE INSTITUTIONS.

The third biennial report of the state board of supervision has been presented to Governor Duff, and covers a period from October 1, 1886, to September 30, 1888. There are many facts and figures in the report that will prove of interest to every voter. The board has under its care the school for the deaf, school for the blind, school for dependent children, two hospitals for the insane, the industrial school for boys and state prison—seven institutions. These institutions cost the state \$378,621.82 in 1887, and \$406,665.75 in 1888. Their average aggregate population in 1887 was 2,286; in 1888, 2,319.

The average yearly cost per capita was \$165.93 in 1887 and \$175.35 in 1888. The average weekly cost per capita was \$3.19 in 1887 and \$3.37 in 1888. The board says that the six institutions in equipment, discipline, moral tone, and efficiency, are among the best of the country, and the people of the state may reasonably regard them and their work with pride and satisfaction.

The average population of the state hospital for the insane decreased from 523 in 1887 to 479 in 1888, the reduction being due to the establishment of the county chronic insane asylums. The average population of the northern hospital was 553 during 1887 and 634 during 1888.

The past two years' attendance at the school for the deaf averaged respectively 197 and 216, being the largest in its history. The per capita cost, notwithstanding the many improvements made about the institution, was less than it was for the biennial period preceding the one for which the report is rendered.

The total commitments to the industrial school for boys during the past two years were 262, and releases 175; average attendance for the fiscal year of 1887, 335; for 1888, 359. The per capita cost in 1887 was \$136.48; in 1888, \$136.78. The board determined to greatly curtail the manufacture of boots and shoes at the school, because of the tying up of funds which would be more profitably expended in the purchase of stock and land. The manufacture of socks is now the resource the board has to employ, and it is estimated that the state will be able to make the institution an industrial training school in the full meaning of the term where boys shall be instructed in trades regardless of the value of the products of the shops.

The number of pupils in the state school for the blind the past year was the largest in its history, the enrollment being 101 and the average attendance 85. The state public school for dependent children was opened for pupils November 13, 1886. In the first appropriation for the school the state gave \$30,000 for the purchase of a site and the erection of a building. In the last legislature an act was passed appropriating \$65,000 for the erection and furnishing of a central building and two cottages—also a barn and another outbuilding as the board should deem proper. Under this act the buildings—not including the barn, which cost \$1,575—were erected at a cost of \$44,578.50; the steam heating the main building cost \$2,000 and the furnaces for the cottages \$1,700. The furnishing of these buildings was done at a cost of \$5,047.96. The buildings accommodate 260 pupils. There are now 104 children in the school, and 90 have been placed in permanent homes.

The average population of the prison for the biennial period just closed was 446, for the previous one 449. The board recommends the enactment of a law providing for intermediate sentences; also that the central buildings and cell rooms be heated with steam. The net expense of maintaining the prison in 1887 was \$9,045; for 1888 it was \$12,167. The contract with Wells & Co. in the fiscal year 1887 yielded the sum of \$50,258.19 and in 1888, \$48,906.98, or \$99,165.11 for the biennial period. During the same period the net expenses of the prison aggregated \$120,690.40.

HOW THE CABINET WILL BE FORMED.

In view of the many speculations regarding the cabinet which General Harrison will appoint, the Indianapolis Journal edited by Mr. Hartford, who will be his private secretary, makes the announcement that the new cabinet will consist of the following kind of persons:

Secretary of state—A gentleman of national reputation and in the experience of public affairs, who will be entirely free from snobbery and will not attempt to compensate for his subordination to strong powers by his truculence and bravado toward weak ones. (It does look as though that might be Blaine.)

Secretary of the treasury—A practical statesman and financier, who will not violate the law to nurse the surplus, declare the monthly debt statements to make the reduction appear large, or carry an enormous government debt in favor of national banks without protest.

Secretary of war—A man of military knowledge, who will not permit any of his subordinates to issue orders regarding colored regiments, flags, or discharge women and children.

Secretary of the navy—A real man, and not one principally known for following the crowd at paper fox hunts, and as an aspirant society leader.

Secretary of the interior—A well-known republican who will not order the department flag at half-mast when a distinguished confederate dies, and who does not encourage private land speculation.

The New Year Reception of President and Mrs. Cleveland.

ALL OTHER LIKE AFFAIRS SURPASSED.

The White House a Veritable Flower-Garden—A Large Crowd Honors the Chief Magistrate and His Wife—Mrs. Cleveland's Toilet.

WASHINGTON, Jan. 2.—President Cleveland's New Year's reception exceeded in point of brilliancy any thing ever before seen at the White House. Many things contributed to its great success. The weather was perfect—a cloudless sky and the soft balmy air of a spring day.

The Executive mansion was from the drawing-rooms of the lower east, was artistically adorned. The great East room was fragrant with the odor of pine, and the masses of tall pines set in each window, through the lace draperies on clusters of crimson poinsettia bloom. In the blue parquets were filled with great bouquets of white azaleas, bushes and poinsettias, and the mantels decked with ribbons of red and white camellias, fringed with hyacinth and anemones. As usual the Marine band, in brilliant uniforms, was stationed in a main hall of the mansion, and with military punctuality at 11 o'clock, the hon. fixed the reception to begin, struck up the "New Year's Greeting March."

As the President and Mrs. Cleveland appeared at the head of the stairway leading from the second floor to the Blue room, the crowd of guests below where the formal presentations were to be made. Immediately behind them came the receiving party. The members of the Cabinet who were present were received in a friendly and cordial manner by the immediate receiving party they took their places behind the official receiving line. The receiving party consisted of the following:

President and Mrs. Cleveland, Miss Bayard, Mrs. Fairchild, Mrs. Whitney and Mrs. Dickinson. Behind the line stood Mrs. Folson, Miss Mary Hastings, Mrs. Carrie Hastings, Mrs. Nelson, Mrs. Chief Justice Fuller, Mrs. Speaker Carlisle, Miss Florence Bayard, Mrs. Vinton, Mrs. Sprague, Mrs. W. C. Lamont, Mrs. Lincoln, Mr. George Bancroft, Hugh McCulloch and Mrs. McCulloch; Mrs. Colonel Wilson, Miss Wilson, Mrs. Marshall Wilson, Miss Mary Wilson, Mrs. Butler, Mrs. Senator Call, Mrs. Cockrell, Mrs. Daniel, Mrs. Hearst, Mrs. Pugh, Miss Voorhees, Miss Randall, Mrs. Walbridge, Mrs. Leo Knott, Mrs. Lucius Tucker, Mrs. Sam G. Ward, Mrs. John F. Rodgers, Mrs. W. C. P. Breckinridge, Mrs. McAdoo, Mrs. John E. Russell, Mrs. Sprague, Mrs. R. W. Taylor, head, Miss Lester, Miss Howard, Miss Thoron, Mr. and Mrs. John G. Milburn, of Buffalo; Mrs. J. H. Mackin, of New York; Mr. J. E. Crimmins and daughter, of New York; General James Grant Wilson and Mrs. Wilson, of New York; Mrs. Governor Morris, of New York; Mr. and Mrs. Franklin MacVeagh, of New York; Mrs. Glenny, of Buffalo; Judge Bayle, of New York.

Mrs. Cleveland's gown was one of the most becoming toilets she has ever worn. She looked queenly in her robes of brocade and fur. The dress was princess style, severely simple and graceful. The bodice was a gray poplin, with the sides of the skirt of the same, exquisitely embroidered in silver thread and beading, disclosing in front a petticoat of shrimp pink faille. The train was of the pink faille and was bordered from the waist down and around the sweeping folds, which lay a yard behind her on the floor, with black marabout feathers. The bodice had a jacket effect and showed a loose vest of the beaded tulle, and was edged around the neck with black marabout feathers. Her gloves matched the gray in her dress, as did her tiny steel-embroidered slippers, which peeped out now and then. A single strand of diamonds was about her throat, and in her hair, brushed back smooth from the forehead, gleamed two diamond stars.

Miss Bayard was in blue silk, veiled with white lace; Mrs. Whitney in gold and white brocade, with sapphires and diamonds; and Mrs. Dickinson in Nile green crepe and brocade. Mrs. Folson wore pale lavender veiled in silver-dotted net.

It required but a moment's time for the arrangement of positions to be made and then the reception began, the diplomatic corps, with their ladies, entering first. Many of the foreign representatives were in military uniform and radiant with insignia of various orders. They presented a spectacle of great attractiveness and splendor. The diplomats filed into the Blue room in the order of their appointment and then presented the attaches of the legations. Mr. Preston, the Hawaiian Minister, the Dean of the corps, was unavoidably absent from the city, so Baron de Fava, the Italian Minister, presented the members of the corps to the President and Mrs. Cleveland.

Then followed the reception of the Supreme Court Justices, Senators, Representatives. After these came the Army and Navy officers in full dress uniform. Following these came the officials of the Government and then the Associated Veterans of the war of 1846, the Grand Army of the Republic and the members of the Oldest Inhabitants Association of the District of Columbia.

All of the callers were presented to the President by name by Colonel John M. Wilson and Lieutenant Duval of the army. They passed through the red parlor, at the door of which these two officers stood. The receiving line extended across the blue parlor to the door leading into the great East room, thence through a window which had been transformed into a temporary exit, under a canvas awning and out of the East gate of the White House grounds.

The public reception was announced for 12:30, but it was nearly 1 o'clock when the gates were thrown open to admit the visitors in small squads and detachments. From that time until the close of the reception the crowd poured ceaselessly through the parlors. At 2 o'clock, the hour fixed for the conclusion of the reception, the crowd was still great, and the President said he would remain and receive all who came.

Before the conclusion of the reception at the Executive mansion, the members of the Cabinet and their wives returned to their homes where receptions were held. Senator Ingalls is absent from the city, and the Congressional line at the reception was headed by Senator Morrill, of Vermont. In the absence of Mr. General Schofield, Brigadier-General Benedict led the army.

The attendance was larger than ever before seen at a reception. The President's manner was never more cordial and particularly was this noticed during the presentation of the public, when he stood alone with his wife to shake hands with the crowd, the end of which never seemed in sight.

THE HARRISON'S RECEPTION. INDIANAPOLIS, Ind., Jan. 2.—General and Mrs. Harrison, assisted by Mrs. J. R. McKee, Mrs. James Bradshaw, Mrs. Edward McKee, Miss Lina McKee, Miss Newcomb, and Miss Riley, of Harrisburg, Pa., and Mr. Russell P. Harrison, held an informal New Year's reception at the Harrison home from 2 to 6 p. m. Tuesday.

General and Mrs. Harrison stood in the front parlor and greeted their friends immediately they entered the house. Nearly 1,000 people called.

CAUGHT IN ST. LOUIS. THOMAS VINES, who Got Away with the Chicago Vines, was captured in a Chicago firm, amounting to about \$4,000, captured in the Missouri Metropolis—Miss Evanson, druggist.

NOVEL WAY OF LEAVING THE GARDEN CITY.

St. Louis, Jan. 2.—A detective arrested a young man dressed as a tramp at the Union depot in this city Tuesday. It proved to be Thomas Vines, the assistant time-keeper of the Adams & Westlake Company of Chicago, who was given the pay envelopes of a large number of the firm's employees on Saturday, but instead of delivering them to the foremen of the different establishments took them to the depot, dumped their contents in a bag and absconded. Vines acknowledged his identity when arrested, and told an interesting story. After securing the money, which he took to a room near the factory of the Adams & Westlake Company, he procured a large trunk, disguised himself, put the cash and a lot of clothes into the trunk, which he bore full of holes, and on Monday evening got an expressman and was driven to the Wabash depot. He told the expressman he was broke and intended to beat his way to St. Louis in the trunk. He then opened his baggage, spang in and let the lid, which fastened with a spring lock, down, and the trunk was left in the hands of the driver of the wagon. The trunk with its contents was placed aboard the train, but owing to his cramped position and fear of suffocation Vines managed by kicking and making other noises to attract the attention of the baggage men, who let him out when about 100 miles from Chicago, and moved by his story of poverty allowed him to ride to St. Louis. He had around the depot all day, being unable to secure the trunk, and was finally arrested by the detective, who recognized him from the description telegraphed from Chicago. He will be taken back to the Garden City at once. Funds to the amount of \$8,985.75 were found in the trunk.

ALL BADLY HURT. Result of a Quarrel Between Farmers in Georgia.

Augusta, Ga., Jan. 2.—Four well-known farmers living about eighteen miles from here got into a dispute Sunday over a question of trespass. Shotlows were brought into the field, and the participants were shot to death. The Floyd on the one side, Fielding and his son, and the other, the Black and Sam Fielding each had one eye shot out and are not expected to live. Floyd Fielding was shot in the head and lost all of his teeth. Brown, who was with a few painful flesh bruises, and a few other minor injuries, and well-to-do farmers, and the trouble is greatly regretted as the worst, it is feared, is not yet over.

THOUGHTFUL SANTA CLAUS.
"I've traveled through the sleet and snow, Across the country high and low, To fill the stockings small and great That here in line my coming wait. In creeping baby's tiny hose The India rubber rattles go; A handsome doll, with staring eyes, Will mock the little miss surprise; And what will more delight the boys Than musket, drum or bugle toys? And now, before I climb the flue, I'll bear in mind the mother true, Who works so hard by day and night To keep the clothing clean and white, And in her stocking, long and wide, Some cakes of IVORY SOAP I'll hide."

A WORD OF WARNING.
There are many white soaps, each represented to be "just as good as the Ivory." They ARE NOT, but like all counterfeits, lack the peculiar and remarkable qualities of the genuine. Ask for "Ivory" Soap and insist upon getting it.

OLD SOL SHUT OUT.
Fair Luna Obscures the Orb of Day from the Earth's Sight.

THE SUN'S TOTAL ECLIPSE OBSERVED.
The Scientists Materially Aided by Fair Weather—Stars, Planets and Lightening Seen—Two Comets Discovered—Valuable Photographs Secured.

THE SOLAR ECLIPSE.
SAN FRANCISCO, Jan. 2.—The conditions were generally favorable Tuesday both in California and Nevada for a clear observation of the total eclipse of the sun. In this city the eclipse was only partial, about eleven-twelfths of the sun's surface being obscured. During the period of greatest obscuration it became quite dark, and one star was plainly seen.

SAN FRANCISCO, Jan. 2.—Prof. Louis Swift, director of the Warner Observatory of Rochester, N. Y., telegraphs as follows from Nelson, Cal., where he took observations of the sun's eclipse: "As far as ascertaining opportunity to search for intramural planets it was a failure on account of clouds and haze. All four contacts were well made, a chronometer watch previously set to Los Angeles time being used. Five very small colorless protuberances were seen, all having pointed apices; none of them was particularly large. One was detached from the sun, Bailey's Head, was seen at the second and third contacts, but entirely lost those seen at Denver in 1878. No chromosphere was seen, though looked for. Mercury, Venus, Vega and Alpha Centauri were seen. The corona could not be drawn, but seen through the telescopes was not very extensive."

No scientific observations were made in the city. The path of totality in California was from the north to the south, passing north of San Francisco, and trains from this city conveyed a large number of people to the various points favorable for observation. The weather at Janesville was very clear. The first contact was about 12:30. During the progress of the eclipse the weather became quite cool. Several streaks of lightning were observed during the eclipse. Several stars of great magnitude were seen. The corona was seen at the first and last contacts. The eclipse was seen at the first and last contacts. The eclipse was seen at the first and last contacts.

Many counties have doubled and some tripled their population during the year. Mineral products for the year 1888 are valued at \$20,000,000; manufactured products at \$170,000,000; orchard products at \$24,000,000 and cereals at \$55,000,000; hay and vegetables at \$90,000,000; assessed value of all property increased \$10,000,000.

The funeral will take place in this city in the family burying place.

FATAL FLAMES.
A Three-Story Building in St. Louis Destroyed by Fire—A Girl Jumps from a Window and is Killed—Several Persons Badly Injured—Narrow Escapes.

ST. LOUIS, Jan. 2.—The three-story, salmon-colored building on the southwest corner of Sixth and Morgan streets burned at 6 o'clock Tuesday morning. Mary Byschick, waiting a window of the burning building, a waiter girl named Lizzie (name not known), Mary Davis, Miss Mary, a young woman removed to land suffocated. Patrolman McFarley was nearly suffocated while rescuing others, but was rescued by a neighbor in time to save his life.

25c Daily, a trapeze performer, saved himself and wife by sliding down a rope from the third-story window with his wife in his arms. Several other lodgers were severely burned, but none fatally. The two upper floors of the building were used as a lodging house attached to Hugo Feller's restaurant and saloon, which occupied the ground floor. The building was old, with wooden floors and partitions, and burned very rapidly. The loss on building and contents was about \$2,000. No insurance.

"SHORT" A QUARTER OF A MILLION.
Clerk L. Lighton, of the Boston Municipal Court, Alleged to Be a Defaulter.

BOSTON, Jan. 2.—A year or two ago a rumor current in the city was that Mr. Lighton, for many years clerk in the municipal court, was a defaulter to an amount of not less than \$250,000. The rumor was emphatically denied by Mr. Lighton, and there was really not much ground for the story except that an accountant was examining his books. The matter was dropped. The accountant was kept at work on Lighton's books, and he has been at work ever since. The result of his labors has not been made public, but it is understood that the deficiencies in the account above stated are not much less than the amount above stated.

The Recorder stated in its last issue
that the Kestner hunting party walked home
from Indian Ford. This is about as near
the truth as that paper generally gets.
The party went about half the dis-
tance, starting at about 7.30 in the even-
ing. The wagon came in loaded with
rabbits. The party enjoyed the hunt so
well that they have been out three
times since.

—The eclipse of the sun yesterday
afternoon was observed by many in this
city. The sky was clear and nothing but
the bright sun prevented sightseeing ob-
servers the microscopical of the moon's
shadow. Many had smoked or colored
glass and were thus enabled to make
good observations. The first contact of
the moon was noticed at about 3.30. The
sun was partially eclipsed at sunset.
Portents of the eclipse are given in our
telegraphic columns.

HE HAD TAKEN NOTICE.

A Discussion on Weather in the
Janesville Court.

William Smith, Esq., occupied the
judge's chair at recent session of the
Janesville moot court, and listened while
E. R. Inman and George S. Parker dis-
cussed some suppositions applica-
ble to the apples were damaged by frost on
November sixth while awaiting delivery
by the plaintiff. Because of this the
defendant refused to pay.

"It should be remembered," said At-
torney Inman, "that November is rather
late for apples to be exposed. I hope
the court will take judicial notice that
on November 6th frosts might naturally
have been expected."

"The court," said Mr. Smith soulfully
as he felt of a Cleveland badge in his
vest pocket, "the court has already tak-
en judicial notice that November 6th is a
very frosty day."

Then the janitor pounded on the
steam pipes, for order and the regular
order of business was resumed.

Judge and Mrs. J. B. Cassaday, of
Madison, and Mr. and Mrs. E. D. Coe,
of Whitewater, were among the guests at
the Jeffris-Hanchett wedding to-day.

A Good Investment.

Small that yields large returns from
real outlays. Reader, the way is clear!
No speculation, no chance, big returns!
If you are like most of mankind you
have somewhere a weakness—don't feel
at all times just as you like to head-
ache to-day, headache to-morrow, down
sick next week—alike because your blood
is out of order. A small outlay and what
large returns! You invest in Dr. Pierce's
Golden Medical Discovery and soon
pure, fresh blood courses through your
veins, and you are another being.

CHICAGO TO CALIFORNIA

Without Change of Cars.

The Santa Fe Route is now running
a Pullman Vestibule Sleeping Car from
Chicago to San Diego, via Los Angeles,
without change. The train leaves De-
part San Diego, every night at 11
o'clock. This is a great attraction and
an unequalled accommodation for pas-
sengers. Office, 212 Clark street, corner

A YEAR'S MAIL.

The Amount of Mail Matter De-
livered and Collected by
the Carriers.

Those in the Service—The
Money Order Department
and Other Facts.

The Gazette is under obligations to
Postmaster C. L. Clark for the following
interesting information relating to the
Janesville postoffice during the year end-
ing December 31st, 1888, which are taken
from the Recorder:

During 1888 the carriers have delivered
1017 registered letters; 407,994 ordinary
papers and packages, making a total of
732,111 pieces. They collected mail mat-
ter to be despatched from the office, 155,-
887 ordinary letters; 30,940 postal cards
and 15,247 papers, etc., making a total of
202,093.

The city is divided into six districts,
and the work above mentioned has been
faithfully performed by the following
gentlemen under the supervision of Ed-
ward V. Whiton, superintendent:

District No. 1, Marion M. McDonald,
District No. 2, John F. O'Grady,
District No. 3, Edw. V. Whiton,
District No. 4, Clara D. Capelle,
District No. 5, Wm. J. Lennartz,
District No. 6, Truman D. Mosher.

There has been paid by the depart-
ment for such services during the year
the sum of two thousand six hundred
and fifty dollars. When we take into
consideration the fact that nearly as
much mail is delivered at the office as
by carriers it is easy to see that there
has not been much time for play for
those employed inside the office. This
part of the work has been done by Al-
bert T. Kemmett, mailing clerk; John
P. Richardson and Miss Cornelia V. Red-
dy, registry clerks; and Frank Williams,
general delivery clerk. These clerks
are all faithful, obliging and competent.
The amount paid for services in this de-
partment, including postmaster, was
\$
